EUR 3M

seed round

README.MD

THE PROBLEM

One Hamburg site paid EUR 38,000 in truck waiting fees in 2024

- Three dispatchers, six phones, a paper notebook and a WhatsApp group of about 60 drivers
- 60 percent of trucks arrive between 06:00 and 09:30; the docks stand idle in the afternoon
- Carriers used to absorb the waiting time. Now they invoice it after 90 minutes

EUR 38,000

waiting fees paid at one site in 2024

94 min

average dock wait per truck at that site, March to May 2024

SOURCE: PUBLISHED CUSTOMER CASE STUDY, JUNE 2025

BEFORE: PHONE AND WHATSAPP

~~94~~ min

Average dock wait per truck, March to May 2024

AFTER: MERIDIAN

65 min

Same site, March to May 2025, the first three months live

SOURCE: PUBLISHED CUSTOMER CASE STUDY, JUNE 2025

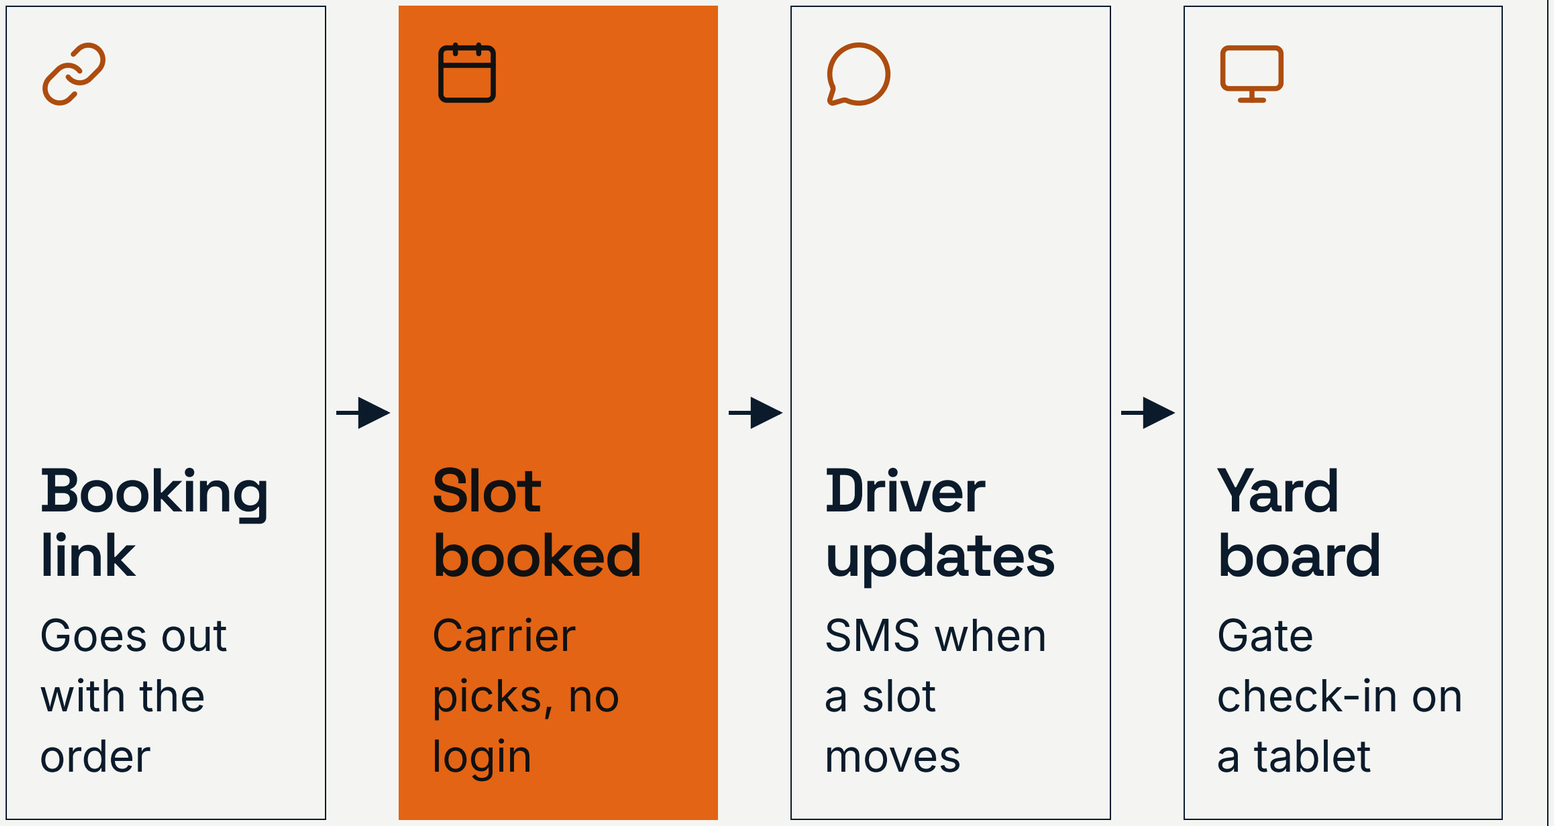

THE SOLUTION

Carriers book by link, and dock wait fell from 94 to 65 minutes at one site

- The booking link goes out with the transport order. No app, no login
- Drivers get SMS or WhatsApp updates in German, English, Polish or Romanian
- Dispatchers work from one inbox instead of six phones

PRODUCT

Every truck knows where to go and when, without a phone call

- Live with paying customers since January 2025
- The first site went live in 11 working days
- Reports: wait per carrier, dock use, no-show rate

SOURCE: PUBLISHED CUSTOMER CASE STUDY, JUNE 2025

SECTION 01

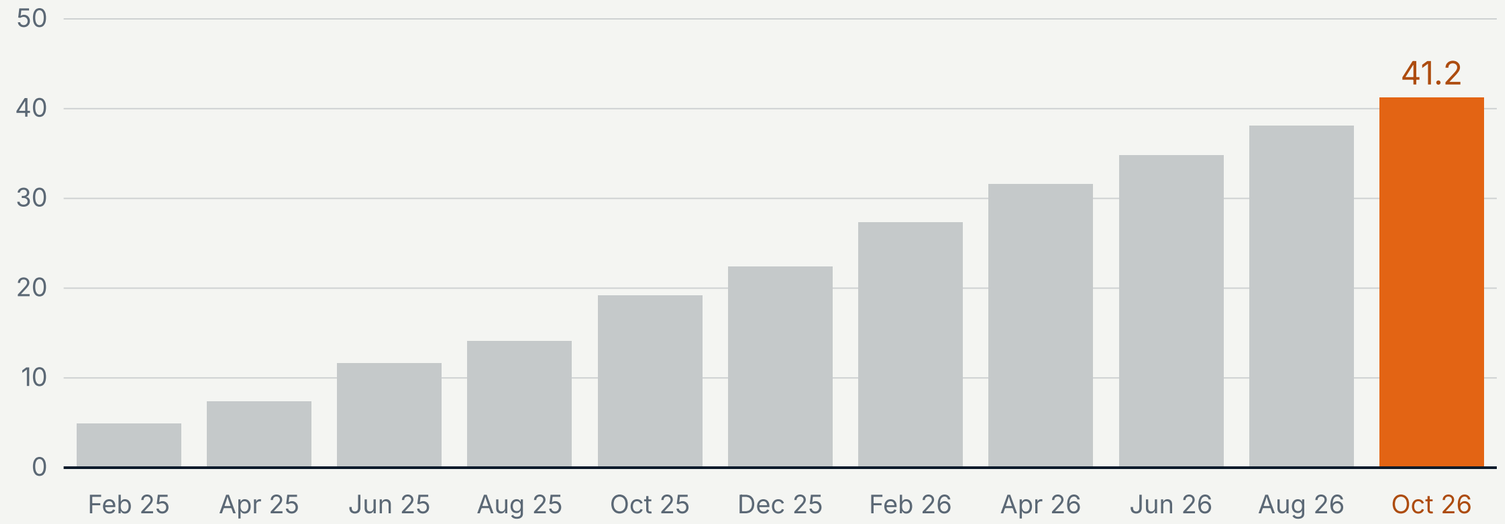

01

Proof: customers pay and stay

Twenty-two months of revenue, three customers lost, one measured site

TRACTION

MRR grew 2.15x in twelve months to EUR 41,200

SOURCE: DATA/METRICS-2026-10.CSV

2.15x

MRR, October 2025 to October 2026

10x

MRR since January 2025, 21 months

32

paying customers, October 2026

IN THEIR WORDS

I do not need a yard management system. I need the drivers to stop calling me. That is what happened.

Head of Operations

HAMBURG FREIGHT FORWARDER, 3 SITES, ABOUT 400 TRUCK MOVEMENTS A DAY

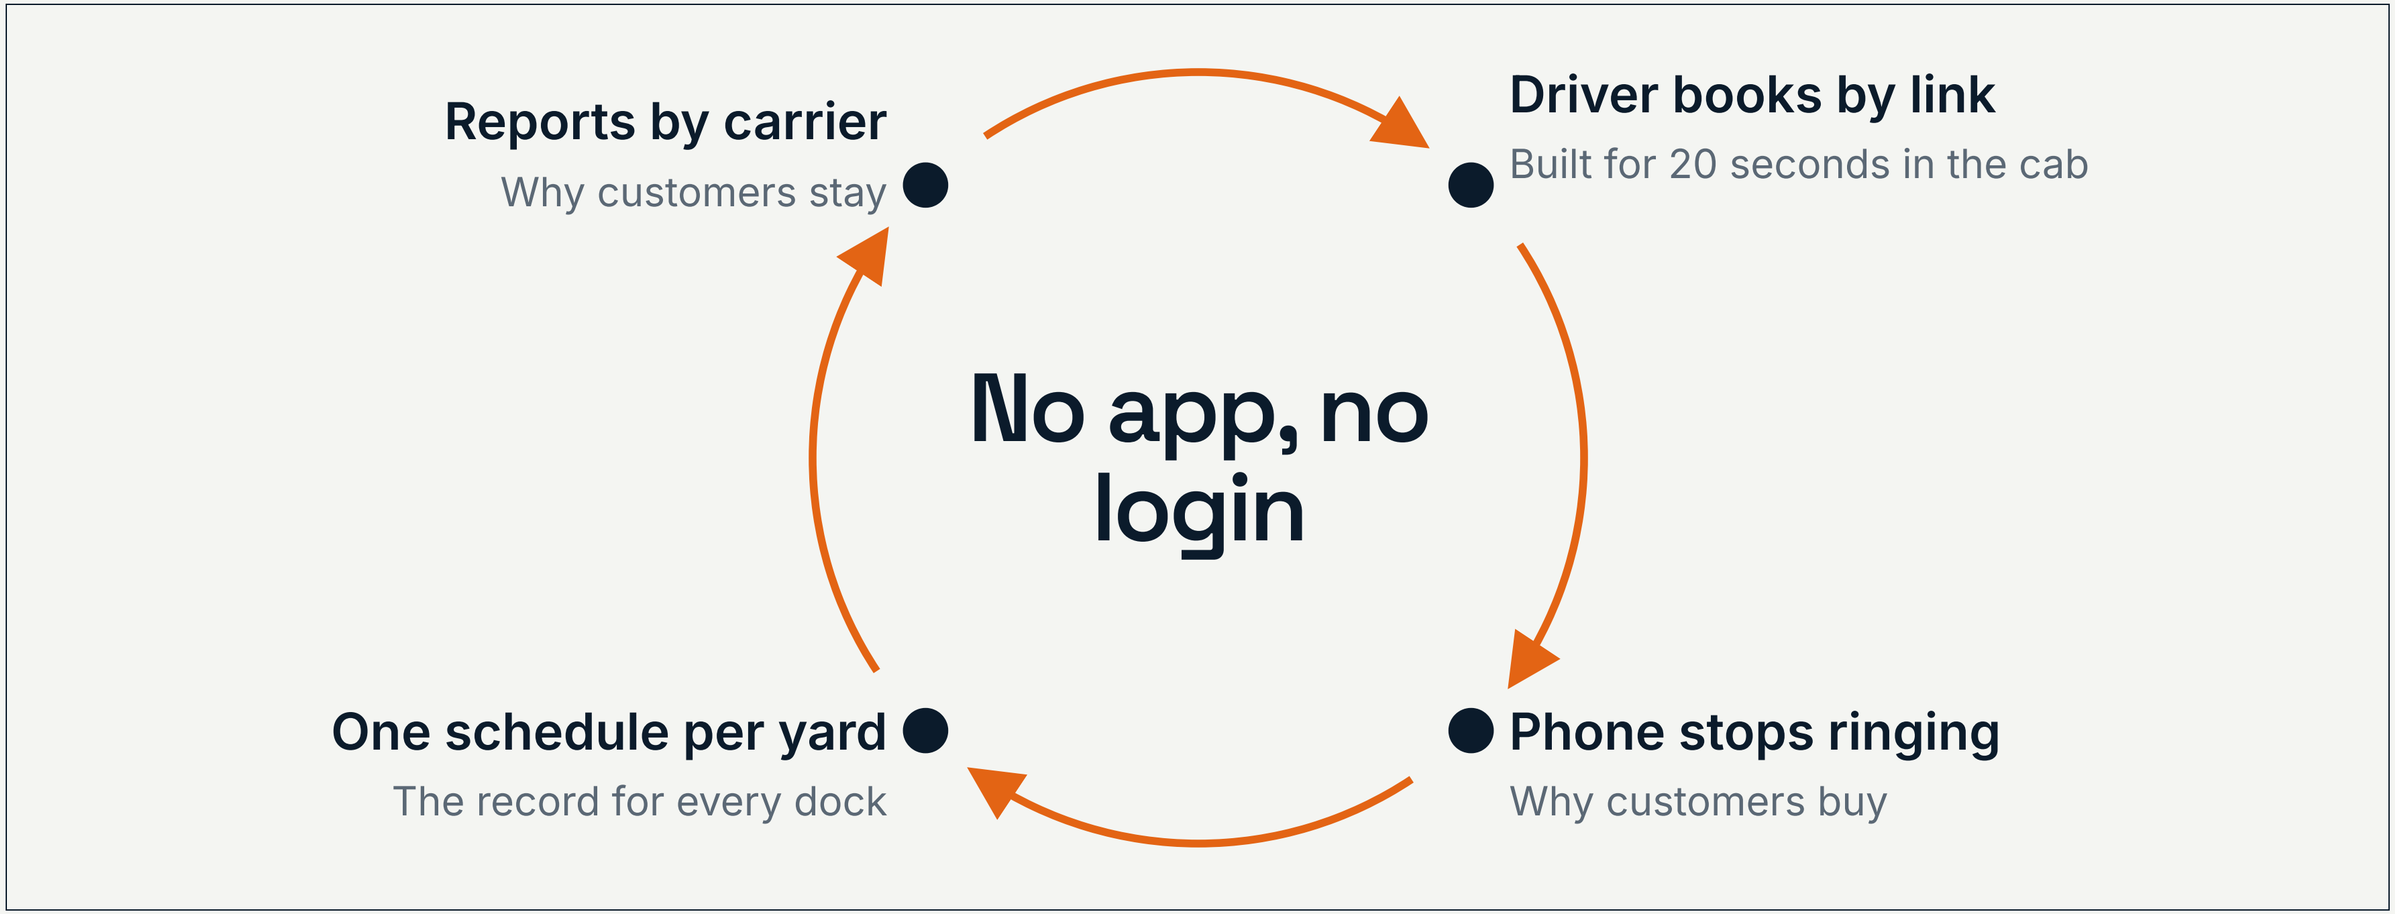

31%

fewer dock wait minutes at the main site, March to May 2025 against 2024

PUBLISHED CUSTOMER CASE STUDY, JUNE 2025

INSIGHT

Everyone builds for the dispatcher. We build for the driver.

SECTION 02

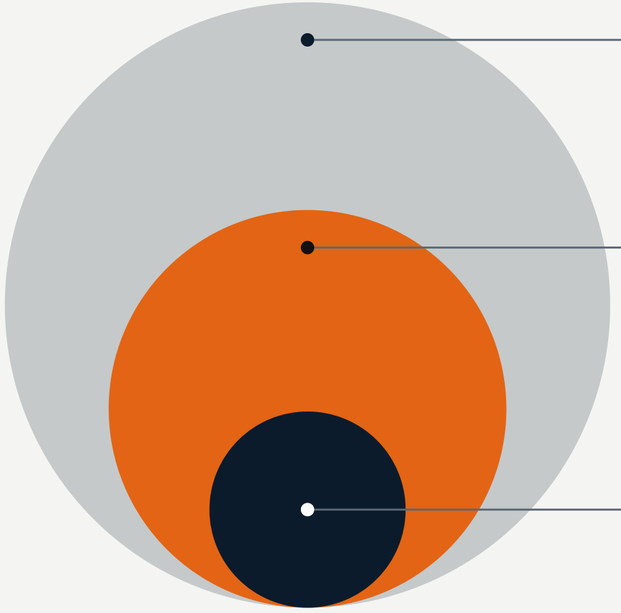

02

Mid-market is the segment, not a stepping stone

The business: market, pricing, how we sell and who else is there

MARKET

We estimate EUR 216M a year in DACH and Benelux alone

needs number

TAM: the Europe-wide company count is not sourced yet

EUR 216M

SAM: 14,000 companies in DACH and Benelux x EUR 1,288 a month x 12 (assumption)

EUR 494k

Today: ARR run-rate from 32 paying customers, October 2026 (fact)

- Company count: our desk research on Destatis and Eurostat, companies with 2 or more sites, 2025
- Revenue per customer is our October 2026 average across 32 customers

SOURCE: NOTES/FOUNDER-MEMO-NOV-2026.MD, DATA/METRICS-2026-10.CSV

BUSINESS MODEL

A customer pays EUR 1,288 a month on average, priced per site

EUR 1,288

average MRR per customer, October 2026

DATA/METRICS-2026-10.CSV

EUR 494k

ARR run-rate, October 2026

82%

gross margin, a model input, not yet from the accounts (assumption)

DATA/FINANCIAL-MODEL-V3.XLSX

3

customers lost in 22 months

A monthly subscription per site, paid by the operator

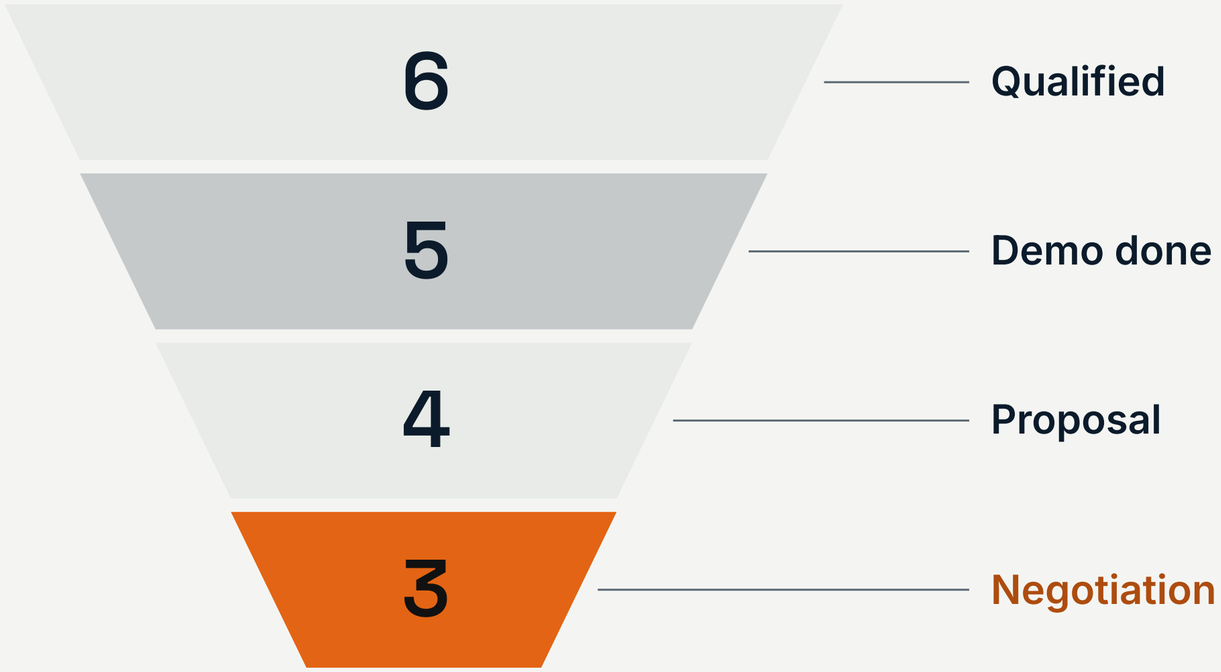

Per-site pricing undercharges our biggest customers; per-movement pricing is planned for Q4 2027

GO TO MARKET

Two founders close 1.5 customers a month. The round pays for a sales team.

1.5
new customers a month, average over 22 months

EUR 487k
annual contract value of 18 open deals, unweighted

- Beachhead: forwarders, 3PLs and cross-dock operators with 2 to 15 sites in DACH and Benelux
- All 18 open deals are owned by a founder; no deal has yet closed without one

“Everything in this industry is built for DHL. We are not DHL.”

COO of a five-site freight forwarder, after turning down an enterprise yard system, June 2025

COMPETITION

Enterprise systems serve the large shipper. Meridian serves the forwarder.

	Meridian	ENTERPRISE YARD SYSTEMS	SLOT-BOOKING MARKETPLACES	PHONE, WHATSAPP, EXCEL
Built for	**Forwarders and their drivers**	Large shippers	Shippers, retail DCs	Small yards
Time to go live	**11 working days at the first site**	About six months	Not known	None
Who pays	**Operator, per site**	Operator, plus setup	Carrier, per booking	Nobody
TMS integrations	◯	●	Not known	◯

- From our notes on prospects and trade shows, July 2026; not checked against public pages

TEAM

Lena ran operations at an 11-site forwarder. Jonas built carrier messaging.

LO

CEO: SALES, CUSTOMERS, HIRING

Lena Ostrowski

9 years in logistics operations. Head of Operations DACH at a mid-size forwarder with 11 sites and about 900 people: the job our customers have.

JH

CTO: WRITES THE CODE

Jonas Hebbel

11 years in software. Led a fleet routing team of about 20 engineers; before that, SMS and WhatsApp messaging at a telco provider. Built version one alone in 5 months.

- Lena was a customer of Jonas's previous company. Team of 7 in Berlin, with a former dispatcher in customer success

THE ASK

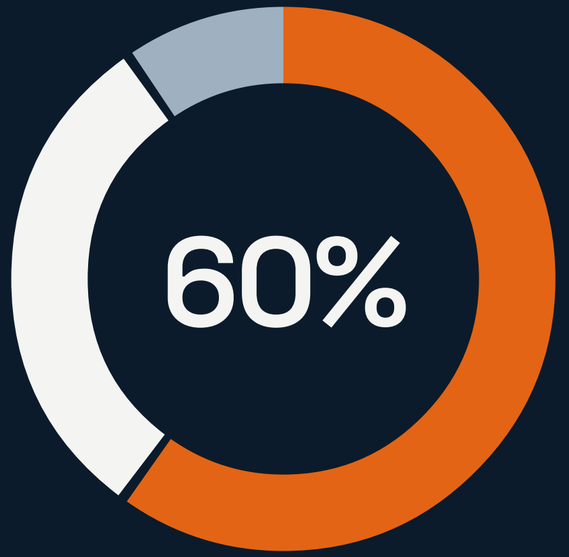

Raising EUR 3M to move from founder-led selling to a sales team

About 19 months of runway from a January 2027 close (projection)

WHAT IT BUYS

- **Q1 2027** Carrier scorecards live
- **Q2 2027** Connectors to the 3 TMS products customers use
- **2027** Deals closed without a founder; 4 new customers a month (assumption)
- **Mid 2028** ARR needs number when the round is spent

USE OF FUNDS

Go-to-market: 4 account executives, 1 SDR, 1 marketing lead	60%
Product: 3 engineers, 1 designer	30%
Operations and buffer	10%

SOURCE: README.MD, DATA/FINANCIAL-MODEL-V3.XLSX, NOTES/FOUNDER-MEMO-NOV-2026.MD

Meridian

Dock scheduling and driver messaging for mid-size freight forwarders

LENA OSTROWSKI, LENA@MERIDIAN-OPS.EXAMPLE

EUR 41,200 MRR, up 2.15x in twelve months

32 paying customers, 3 lost in 22 months

Raising EUR 3M to build the sales team
